
Trans-Friendly Physician Referral List

This list was compiled by FORGE and was last updated October 2014. Physicians on this list are included because one or more transgender and/or non-binary person has had positive healthcare experiences with them. FORGE does not endorse any particular health care provider, nor does FORGE imply that any of these care providers are medically knowledgeable in working with trans/SOFFA individuals. FORGE's resource lists are, in part, driven by feedback we receive from consumers. Please share your experiences with us and/or make suggestions for additions to this list.*
